cross-dialog discussion  
on 27<sup>th</sup> April, 11:15-12:15

# Workshop

## Climate Change

### key questions for in-depth discussions in the workshop

Q1

Which bottlenecks for effective climate protection actions can be addressed by cooperative research between Germany and Vietnam?

Q2

Which research questions will be relevant in 2030, 2040 and 2050 for construction, urban development, energy and climate adaptation in light of the Paris Agreement commitments in Vietnam and in Germany?

Q3

How could a research-to-implementation-roadmap be drafted to guide effective research towards climate-change mitigation and climate adaptation in Vietnam and in Germany?

Q4

How does bilateral cooperation contribute to Vietnam's and Germany's respective science and innovation strategies?
