OUR ROOTS

Alexander von Humboldt (1769 – 1859):
explorer, universal genius, cosmopolitan and
sponsor of excellent scientific talent

1953: Establishment of today's Alexander von
Humboldt Foundation, based in Bonn Bad-
Godesberg

International network of academic
cooperation, modelled on Humboldt

WHAT WE DO

- Research fellowships for researchers from Germany
- Research project as guest of a member of the Humboldt network abroad

WHAT WE DO

- No quotas, neither for individual countries nor for specific academic disciplines
- Applicant's academic record as sole selection criterion
- We support people, not projects

The background of the slide features a faded, historical map, likely of the Americas, with a network diagram overlaid on the left side. The network consists of four green circular nodes connected by thin white lines, forming a triangular shape with an additional line extending from one node. The map shows geographical details like coastlines and rivers in muted colors.

OUR NETWORK

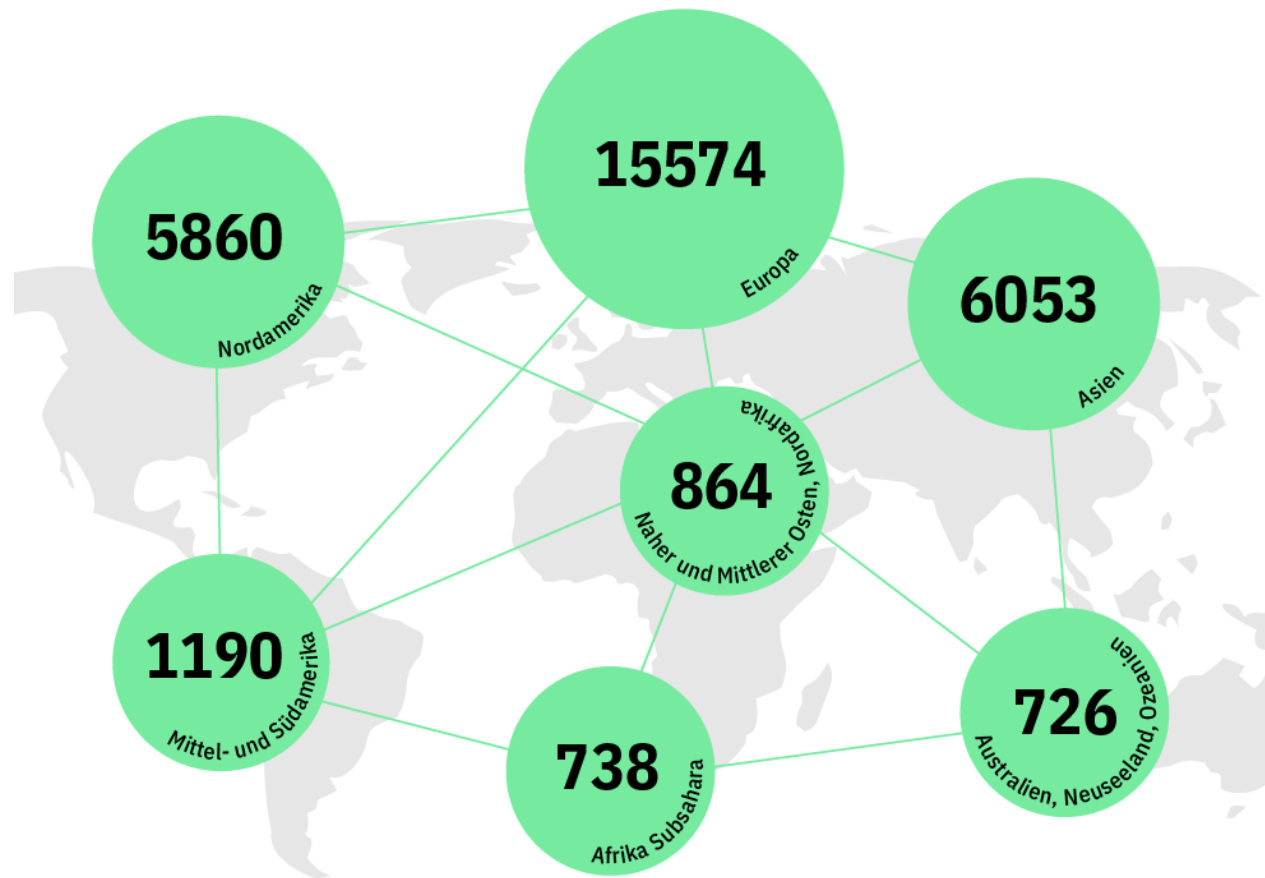

**“IDEAS CAN ONLY BEAR FRUIT
IF THEY TAKE ROOT IN MANY
MINDS.”**

Alexander von Humboldt

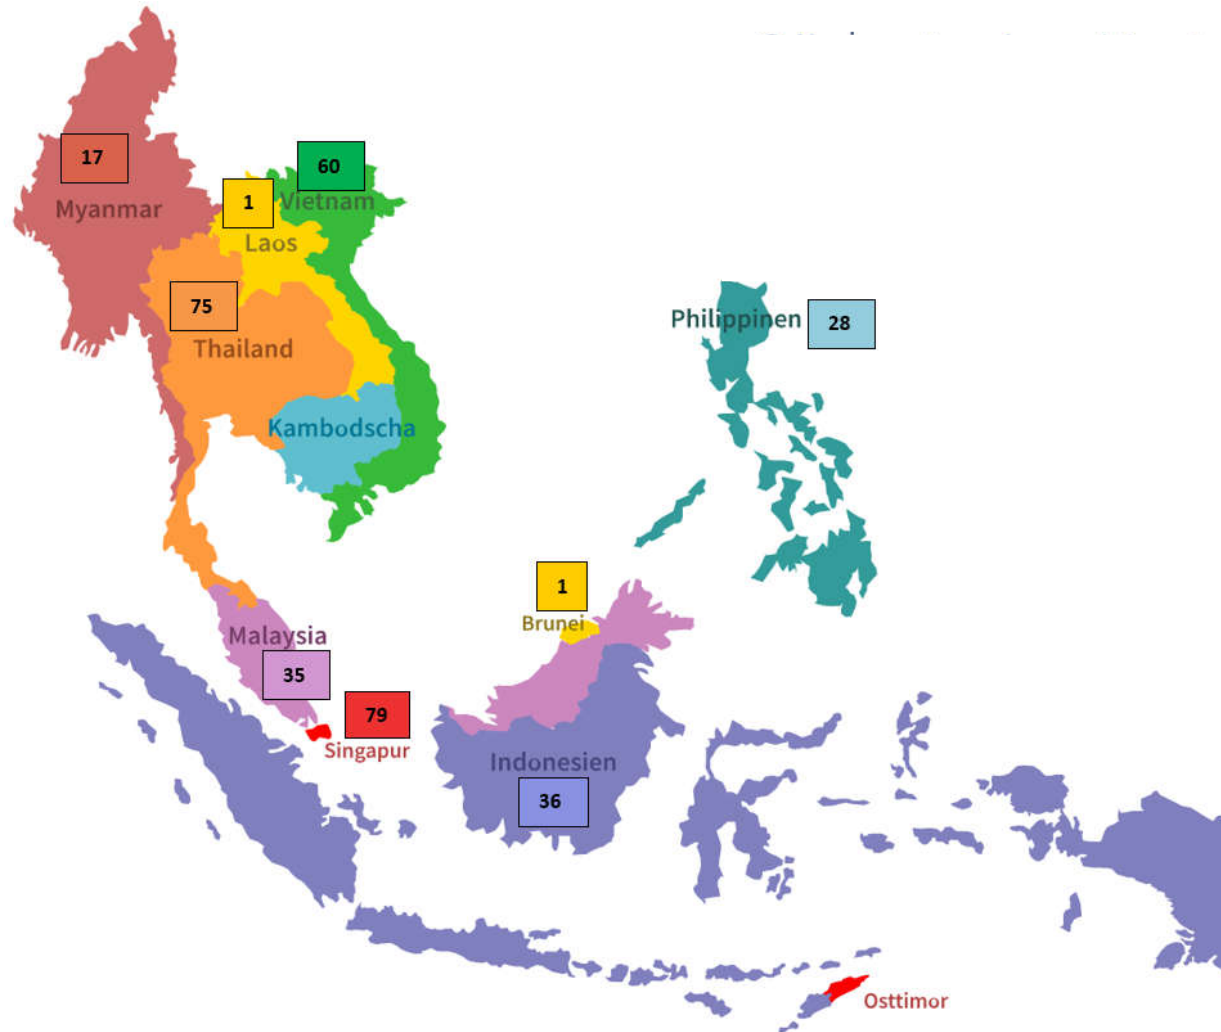

- World-spanning Humboldt Network transcending the boundaries of disciplines and countries
- Scientific solutions to the challenges of our times
- A network of trust and understanding
